

FREE BEGINNER GUIDE

10 Things You Can Ask AI

Simple ways to explain, organise, plan and create. Choose one idea and try it today.

NO PERFECT PROMPT REQUIRED

Change the bracketed details, read the response and ask for one improvement. Your judgement matters more than clever wording.

New Earth Practical Guides 001
Peter Ellis | Edition 1.1 | October 2026

START IN FIVE MINUTES

How to use this guide

Open	Use an AI assistant you can access.
Choose	Pick one of the ten ideas.
Personalise	Replace the bracketed details.
Read	Check whether the answer fits.
Refine	Ask for a change or a simpler version.

YOU STAY IN CONTROL

AI can make mistakes. Verify important claims with reliable sources. Do not share passwords, confidential work or other people's private details.

This is a PDF guide, not an AI account. The service you use has its own terms and access limits.

IDEAS 1-2

Copy, personalise and try

1. Turn a messy problem into small steps

TRY THIS

I need to [describe the task]. Break it into small steps a complete beginner can do one at a time.

Follow up: Now put the steps in the best order and tell me what I should do first.

2. Explain something without the jargon

TRY THIS

Explain [topic] to me as if I were 12. Avoid jargon and use one everyday analogy.

Follow up: Now ask me three simple questions to check whether I understood it.

IDEAS 3-4

Copy, personalise and try

3. Turn ingredients into meal ideas

TRY THIS

I have [list ingredients]. Give me three simple meal ideas using mostly what I already have.

Follow up: Choose the easiest option and give me beginner-friendly steps.

4. Organise a chaotic list

TRY THIS

Organise this task list by the deadlines and priorities I provide. Flag anything unclear and do not invent urgency: [list].

Follow up: Suggest a realistic plan for today. Ask me to confirm the priorities before finalising it.

IDEAS 5-6

Copy, personalise and try

5. Compare two choices fairly

TRY THIS

Help me compare [option A] and [option B]. Show the main benefits, downsides, costs or effort, and questions I should consider.

Follow up: Do not choose for me. Give me five questions that would help me decide.

6. Learn a new skill with a mini lesson

TRY THIS

Teach me the basics of [skill/topic] as a complete beginner. Give me a 10-minute lesson and one small practice exercise.

Follow up: After I answer the exercise, give me feedback and the next lesson.

IDEAS 7-8

Copy, personalise and try

7. Improve something you wrote

TRY THIS

Make this clearer and easier to read without changing what I mean or making it sound overly formal: [paste text].

Follow up: Show me the main changes you made and why.

8. Get unstuck when you need ideas

TRY THIS

Give me 10 different ideas for [goal/problem]. My limits are: [budget, time, location or other constraints].

Follow up: Pick the three most realistic ideas and explain the first action for each.

IDEAS 9-10

Copy, personalise and try

9. Prepare for a difficult conversation

TRY THIS

Help me prepare for a conversation about [situation]. I want to be clear, respectful and honest. Help me organise what I need to say.

Follow up: Let me practise a calm opening. Do not assume you know what the other person thinks or will say.

10. Ask AI what you should ask next

TRY THIS

I want help with [goal/problem], but I am not sure what information matters. Ask me one question at a time until you have enough information to help.

Follow up: When you have enough information, summarise what you understood before giving your recommendation.

YOUR NEXT STEP

Keep building confidence

You have tried the same skills used throughout AI Made Simple: explain the task, read the response, refine it and check what matters.

THREE PHRASES TO KEEP

Explain that more simply.

Give me an example.

What should I verify before I use this?

The complete AI Made Simple starter pack includes a 55-page guide, 50 Beginner AI Prompts, CLEAR + CHECK worksheets, a 7-Day AI Challenge and a Quick Reference Card.

Explore the current guides and availability at new-earth.uk. This free guide stands on its own; buying the complete pack is optional.
